## Our story so far . . .

MODS luggage was established in China in 1987 with the purpose of providing a highly efficient manufacturing service for the global luggage industry. Today we are proud to be one of the most successful luggage producers in the world.

At our state-of-the-art manufacturing facilities in Jiaxing, Zhejiang, we manufacture and export an extensive range of luggage to global retailers including lightweight soft, hard shell, frameless, cabin, premium, essential and fashion, as well as a further range of handbags and holdalls.

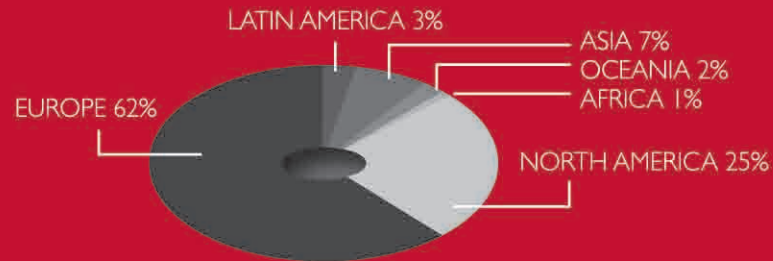

In 2014 MODS UK was established to offer international customer the opportunity to make significant cost savings by ordering direct to MODS. The cost saving benefits allows our customer to offer lower costs and greater value to their customers and increase their market share.

We have earned a formidable reputation for delivering outstanding quality products and service excellence in the luggage industry offering our customers a 'complete sample to delivery' service, including full design and local after sales customer support.

We are **with you all the way.**

## Award-winning design

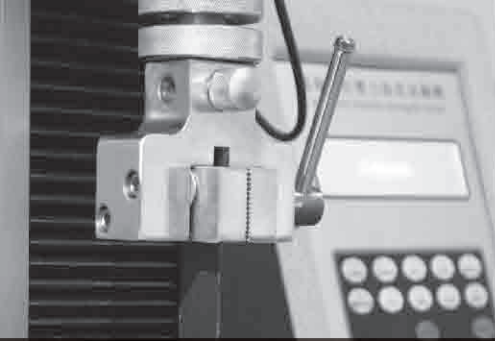

MODS® Luggage has an envious reputation of being known as the "Zhejiang Top Export Brand".

Our award winning luggage design team have won many awards, having produced 7 utility model patents and a further 88 design patents.

Our team works hard to bring our customers the very latest design trends which they combine with innovative technology. This enables us to continually set new standards in luggage design which sets us apart from other luggage manufacturers. We have created over 2000 collections and introduce around 150 new collections every year.

### **UK Design and Marketing team**

Our products are frequently used for our customers' own-brand developments as well as our own MODS Luggage brand. Our UK design and marketing team have extensive experience in developing luggage branding and marketing collateral for major UK and international retail brands.

At MODS Luggage quality is at the heart of our business and we work to ISO 9001 quality standards. We follow strict protocols to ensure that our luggage meets industry standards and that they are safe for use by everyone. The materials that we use are of the highest quality and products are inspected by the head of quality control.

## Reliability and endurance

Our products undergo rigorous testing to ensure that they withstand the sometimes harsh knocks of travel and provide customers with many years of use.

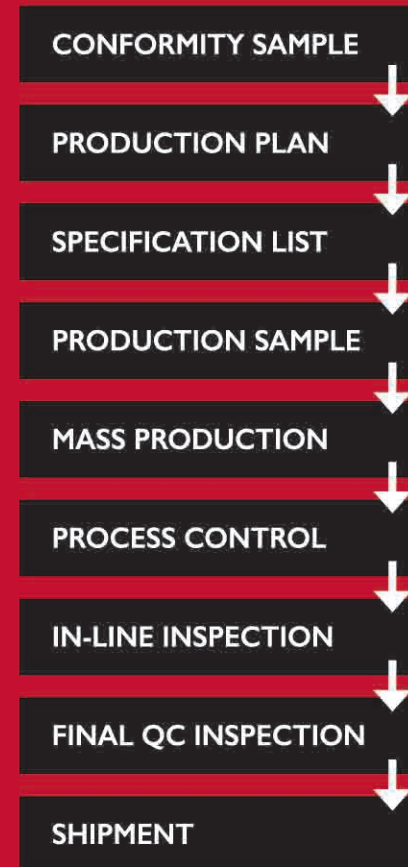

### Physical Testing

We test every element of our products from the strength of the fabrics and shells that we use, to the robustness of trolley handles and wheel endurance. We then set about testing them under extreme temperatures to ensure that they stay as good as new, wherever they are in the world.

### Chemical Testing

We carry out testing on a wide range of materials to ensure that they are safe for use and comply with all health and safety regulations and trading standards.

### Quality Control Procedure

# Our Product Family

We have been designing and producing beautiful, functional luggage and handbags for 28 years and we have now sold in excess of 500 million pieces.

Our collections will continue to grow and we will continue to provide our customers with exceptional quality products to suit all customer needs.
